Add-Ons

Manufacturing Module

Complete a comprehensive production process that integrates assembly line operations and stage-wise tracking. This includes material request, issuance, consumption, wastage tracking, barcode serial number printing, quality control (QC), palletizing, in-process quality control (IPQC), and other relevant aspects. It also involves both assembling and disassembling procedures.

Solar Pump Module - Kusum Yojana

Manage your sub-projects completely including activities such as work order management, allocation of Letters of Intent (LOI), beneficiary detail handling, installation processes, Photos, Installer/Contractor access, and the printing of documents and certificates.

Field Force: Live Geo-Location Tracking

Track field force Sales and Service executives using maps, distance traveled, expense booking, visit details, and much more.

Customer Portal - White Label Mobile App

Complete visibility to customers into their projects, enabling them to view progress, photos, documents, and invoices. They can also refer to other customers, and raise complaints as needed. Customize this app in your company's brand name.

Integrations

Tally Integration

No duplicate effort in entering Invoices, Payments, Receipts, bills, and Expenses. Enable Auto sync between OctaBees ERP System and Tally Accounting Software to streamline data management processes.

Website API for Integration

Directly receive leads into OctaBees CRM lead modules from your website's Contact Us page. An API would be provided for easy integration. The client's website developer is responsible for handling the integration process.

Bio-metric Integration

Integrate OctaBees Software with bio-metric devices to get attendance straight from them. There's no need to integrate attendance data into OctaBees to track absenteeism and late arrivals.

Just Dial Integration

Receive leads straight to OctaBees CRM lead modules from Just-Dial every 1 Hour, So your sales team can easily follow up.

India Mart Integration

Automatically receive leads into OctaBees CRM lead modules from India-mart every 1 Hour, ensuring your sales team can promptly follow up with potential customers.

Note : This plan is subject to change without prior notice. The final plan and features will be provided to you as outlined in the quotation proposed to you.
